THE RACES.

CONCLUSION OF THE REGULAR PROGRAMME YESTERDAY,

With the Hardest Fought and Most Interesting Contests of the Week—Baldwin's Grisette Gracefully Retired and Douglas Winner—Best Running Time.

The absentees from the races at the Agricultural Park track yesterday missed, as is generally the case, the best sport of the week. Everything was O.K., except the attendance, and that was miserable to a degree. Close contests and a pot that overboiled furnished more than enough excitement for the favored few who visited the track.

The opening race, a jump of three-quarters of a mile, was a gift for Baldwin's pretty mare, who had an easy exercise gallop, and threw the dirt in the face of Consuelo, her only opponent, all the way round. The run was such a sure cinch for Estrella that no speculation on the result was indulged in.

First race—E. J. Baldwin's b.m., 5, Estrella, by Rutherford-Sister Anna, 118, West..... 1
E. R. Den's b.s., 5, Consuelo, by Grinstead-Nina R., 100, O'Brien..... 2
Time, 1:18.

HANDICAP.

Much more interest was taken in the next event, a handicap for all ages, mile and a hundred yards. Grisette, Dave Douglas, Ed Smith and Four Aces were the entries who came to the post. Speculation was quite heavy on the result. The first pools sold: Grisette $10, Aces $3, Douglas $6 and Smith $2. When the patrons of the turf got warmed up, they made Grisette, Aces and Douglas even favorites at $10 each, Smith selling for $3. There was a great deal of chopping and changing, one sample pool being Grisette $30, Aces $15, Douglas $13 and Smith $4. Aces finally closed up as good a favorite as anything, with Smith away below par. When the final track bell was rung, Aces behaved very badly, his jockey, Roach, a shrimp of a child, who in *puris naturalibus* would not weigh 60 pounds, and who weighed in at 85, could not hold him. Aces, Douglas and Grisette kept kicking up all sorts of pranks, and running around to suit themselves. Smith's saddle came loose, and had to be tightened, causing further delay, and giving the others a chance to ease their mounts by getting off them and waiting until Smith's repairs were completed. The flag was at last lowered with Douglas slightly in the lead and setting a very lively pace. At the three-quarters Grisette went to the front, Aces, Douglas and Smith strung out in Indian file at equidistant intervals of a length. This order was maintained until the stretch was entered, when Aces, under the whip, closed with Grisette and, passing her, came on with a vim and beat Baldwin's mare by a neck to the wire. Douglas came very fast at the finish, but could not reach the leaders, and took third place by half a length, Smith several lengths behind. Brown, who was upon Grisette, rode very wildly and did not use his whip, and for this was taken down for the next heat by the trainer, West being given the mount in his place, Ed Smith, who he rode in the first heat, being withdrawn by permission of the judges. The time for the heat was very fast, 1:51½, and is said to be the best made on the track. Aces' fine showing now installed him favorite in the betting at $10, against $6 for Douglas and $5 for Grisette, his light weight and the confidence of his trainer, who thought he had a sure thing, emboldening the speculators. Grisette was very anxious to be off for the second heat and caused a couple of false starts. When they were sent off on excellent terms, Douglas went to the front, but was again passed by Grisette, who made the running to the half, where she held a lead of a clear length, Douglas second, Aces third. Into the stretch the same positions were maintained. At the gate all were under the whip, and Douglas answering his jockey's call with great courage, went to the front and won by two lengths from Aces, who was one length in front of Grisette. The excellent time for a repeat heat of 1.52 was hung out as the time. Grisette, not having won a heat, was taken to the stable, and thus left the final issue to Aces and Douglas. The talent rightly wagered that, though the youngster had 30 pounds the best of the weights, Douglas's seasoning would land him the winner, and bet $290 to $8 on his success. His winning was never in doubt from the time the flag fell for the third heat, for he took the lead, and maintaining it all the way round, won as he pleased by three lengths. Time 1:55. Had a stronger and more experienced boy been upon Aces, he would probably have won. Roach, who rode the colt, was absolutely of no use to him, and just sat and laid his whip on Aces' hide with all the vigor and vim of a child in arms. A mosquito biting the horse would have been just as effective.

Second race—Handicap of a mile and a hundred yards, all ages. Heats.

Time, 1:51½, 1:52, 1:55.

The glorious uncertainty of the turf was never more clearly demonstrated than in the last race, the concluding event of the meeting. It was a consolation handicap of a mile and forty yards for horses that had not won a race at the meeting. Blue Bonnet, Consuelo, Eddie Smith and Telephone were the entries. Consuelo and Bonnet were assigned the heaviest imposts, and the two others catch weights. Considerable cash went into the pool box at $10 for Consuelo, $6 for Bonnet and $3 and $4 for Smith and Telephone coupled as the field. The buyers of the field did not really care for Telephone, Eddie Smith being supposed to be the good thing. A quiet tip was out on the exhibition horse, it being thought he had been carefully bottled up for a killing. The fun commenced with Telephone, who was to have been ridden by Roach the midget, running away with that promising young infant, and making the tour of the track twice before he could be stopped. When the brute was caught, Roach tumbled off quite exhausted, but chattered out he could ride the horse all right. He was accordingly taken to the stables to dress, in the meantime the time sped on, and at 5:15 the other three entries came out on the track and walked for Telephone to put in an appearance to start. Another tedious wait, and after the bell had been tolled several times by the judges and no Telephone appearing, his owner, Mr. Williams, was fined $10 for delaying the start. Mr. Williams at last came on the track, and said that little Roach had crawfished and would not ride the horse. The judges then announced that Telephone would be withdrawn from the race. This brought out a large, full-bodied adult kick from numerous buyers of the field, and the judges seemed undecided what to do. Mr. Williams solved the problem by offering to let anybody get a jockey to ride the horse, give him away, draw him, ride him himself, let Miss Peek have the mount, or do anything with the horse that any one desired. A consultation was held, and Brown, who had been taken down from Grizette for his poor riding in the heat race, was secured to ride Telephone. Again another delay ensued for Brown to get his riding duds on. When he did come on the course he wore the second colors of the Baldwin stables, which were also worn by little West on Eddie Smith. It was getting very dark, and no time was lost in sending the quartette off. Consuelo, the favorite, started out and made the running all the way round to the stretch, when darkness came on so quickly that but little could be seen of the run until near the gate, where Consuelo seemed to have the race won. Suddenly a black jacket with a crimson Maltese cross on it jumped out of the ruck as if shot out of a cannon, and the despised outsider, Telephone, with the humbled jockey, Brown, on his back, scrambled under the wire an easy winner by three lengths from Consuelo, Blue Bonnet third and Ed Smith, way off, last. Time, 1:51.

A yell of triumph went up from the short sports, and those who had bought the favorites made a wild break for the horse cars en route to town.

Mr. Williams' br.g.a., by Wild Idle, Telephone 96, Brown..... 1
E. R. Den's b.s., 6, by Grimstead, Nina R., Consuelo 113, O'Brien..... 2
D. Dennison's ch.m., 4, by Joe Hooker, Kate Carson 116, D. Dennison, Jr.. 3
Miss Peek's blk.g.a., Eddy Smith (catch weight), West..... 4
Time, 1:51.

Although the track and weather have been all that could be desired each day, the attendance has not been of the most satisfactory kind, numerically speaking; certainly not what the sport shown called for, considering the few horses which took part in the contests. Baldwin's Estrella won all her races, but his Grisette was very badly defeated twice, and cost her supporters considerable coin. The old veteran, Dave Douglas, carried off the honors, he having won every race he started in, even when carrying heavy weight. His heat race yesterday was a good performance. Four Aces is a good one, and will do better in the future. Only nine horses took part in the races during the entire meeting. There is no reason on earth why racing in Los Angeles should not prosper, for the track and accommodations are up to all requirements. It only needs a better attendance to bring big strings to compete for the purses that the management would then be justified in offering.

There is a possibility that a standing-up race on the running horses between Miss Peek and a well-known circus-rider may be arranged for next week.

The tips from the mascot-owner did not go through entirely yesterday. Estrella won, of course, and the tips, Four Aces, at first a rank outsider in the betting, affording good hedging, after winning the first heat, ran a good second, and, with a better jockey, might have won.

A WIFE'S PLAINT.

Mrs. Perry Accuses Her Husband of Bigamy.

Yesterday afternoon a pleasant mannered, attractive little woman came to the police station and inquired for the Chief. Mr. Cooney was not in, but she was shown into the private office, where she remained some time, and one of the officers took her story. Later it was learned that the lady in question is Mrs. E. E. Perry, and that her mission was to have her husband, E. E. Perry, who had deserted her, arrested and brought back here to be tried on a charge of bigamy. Mrs. Perry's story is in some respects a rather pathetic one. She says that she came to Los Angeles from Michigan about a year ago with her husband, and that he went into the real estate business with Frank McCoy. Before she was married Perry had borrowed something over $2000 from her, and when he got the money in his possession and after his marriage he began a systematic course of abuse, treating her in the most brutal manner. They had first kept house, but afterward stopped at the Leland House, on Second street, where she still was. About two months ago he deserted her, and since that time she had heard nothing from him. He had given her a diamond ring some time ago, but had taken that away, and had also bought some lots which he had put in his mother's name. Before he left she had seen a marriage certificate showing that he had been married to another woman, who was still alive, and for this reason she wanted him brought back and tried. Mrs. Perry detailed at considerable length the indignities she had received at the hands of her husband, who, she said, had made life a burden to her for some time. Perry, it is said, has wealthy relatives in this city. The officers promised to look up her case and see if anything could be done for her.

A CANARD

Set to Rest by the Appearance of Mr. Reinert.

For the past several days the German population of the city has been greatly stirred up over the disappearance of a well-known German, who was said to have been the victim of a nameless mutilation at the hands of his wife. A brief account of the affair was published in THE TIMES yesterday morning, giving the rumor and the facts, so far as could be learned, in connection with it. The person in question was John Reinert, the cooper who had a shop on First street for so long, and who is as well known, perhaps, as any man in the city, and as late as yesterday morning it was positively asserted that he had died from his injuries. All day yesterday the officers of the German Benevolent Society were looking out for their supposed lost brother, to give him proper burial, and yesterday afternoon, just after the case had been put in the hands of the detectives, Mr. Reinert put in an appearance, hale and hearty, having just returned from a trip to the mountains, where he had been to sell a lot of wine. Mr. Reinert said that he had heard the story yesterday morning, and had come in to straighten the matter out. He was greatly annoyed over the report, but says that he has an idea who is responsible for it, and will try and get at the bottom of facts. The members of the German Society were greatly exercised over Mr. Reinert's disappearance, as he was very popular, and when it was reported that he was dead, every one resolved himself into a committee of one to find out the facts. The story probably received such ready belief from the fact that Mr. Reinert's domestic relations have been anything but pleasant. At any rate, he is alive and well, and this fact of itself is enough to put all his friends in a good humor.

CHINESE SHOOTING.

A Mysterious Affair for Official Investigation.

Yesterday afternoon about 1 o'clock Officer Muller, who is on duty in Chinatown, heard a pistol shot in a house on Appalassas street, and running toward the place, caught a big Chinaman just as he came running down the steps. The heathen was placed in custody, and on going upstairs another Chinaman was found attending to a wound in the thumb, which had evidently just been inflicted, either with a pistol or knife. The entire outfit was taken to the police station, where it was learned that the dispute had arisen over a game of cards, and that the heathen caught coming down the stairs had shot the other one in the thumb. The shootist, who gave the name of Ah Yung, was searched, and a big Remington revolver was found in his blouse, one chamber being discharged. The wounded man gave the name of Charley Chung, and was locked up as a witness. The case will be further investigated.

ATTEMPTED ROBBERY

Frustrated by the Plucky San Fernando Agent.

Yesterday morning between 4 and 5 o'clock a telephone message was received from San Fernando, stating that an attempt had been made to rob the depot at that place, and asking the police to look out for the thieves, who were supposed to have come toward Los Angeles. The story was to the effect that while the station agent and operator at San Fernando was sitting in his office, yesterday morning, he heard the window raised, and a man shoved a six-shooter in and ordered him to throw up his hands. Instead of doing this, the agent drew his revolver and fired at the robber, which fire was returned, and five or six shots were exchanged, when the robbers made their escape, having a light vehicle, supposed to be a buckboard, in waiting, going toward this city. A couple of mounted officers were sent out to watch for the robbers, but up to a late hour nothing had been heard from them.

In the Interest of Young Men.

Rev. Selah W. Brown, the noted lecturer, who has lately come to Los Angeles to live, will deliver a special New Year address to young men at the Y.M.C.A. gospel meeting this afternoon, at 4 o'clock, at the Opera-house Hall. There will be music by the orchestra and male quartette. Rev. Mr. Brown is a very forcible and interesting speaker, and many young men should hear him.

A Neat Pamphlet.

The Denver and Rio Grande Railway Company is out with a very attractive "California Pamphlet," which reaches the TIMES office by the courtesy of W. H. Snedaker, the passenger agent of the company in this city. Copies can be obtained from Mr. Snedaker.

FIRE BOSSES.

REGULAR WEEKLY MEETING OF THE COMMISSIONERS.

Several Matters of Importance to the Department—People Who Want to Pave Their Streets—Report of the Chief Engineer.

The Board of Fire Commissioners met yesterday afternoon, with Mayor Bryson and Mr. Kuhrts present, Mr. Hanley being absent on business with the Board of Health.

While waiting, the usual bills were audited and ordered paid. Mr. Kuhrts stated that a year or two ago a rule was adopted by the board requiring that all bills be presented monthly, and, on the concurrence by the Mayor in the same proposition, the same rule was adopted by the present board.

The minutes of the previous meeting were read and approved, after which the matter of the Porter stone crusher, at the corner of Los Angeles and Winston streets, was taken up, and it was decided that Mr. Porter should be allowed to crush all the rock on hand, but when this was done no more should be allowed. It was stated that this arrangement had been agreed to, and was satisfactory to all hands concerned.

At this point Mr. Hanley arrived, accompanied by Capt. Barrett, and, after a short interruption, the regular business was proceeded with.

A communication was received from Dr. Bryant stating that the residents on Pearl street, between Sixth and Seventh, had decided to pave that portion of the street, and asking that the fire plugs be placed as early as possible.

Quite a lengthy debate ensued as to the rights of the city and property-owners, after which the matter was referred to the Chief to investigate and, if proper, to have the work done.

Fire hydrants were ordered at the corner of Patrick and Sichel streets and Griffin avenue on motion of Mr. Hanley, and at Boyle avenue and Georgia streets, on Boyle Heights, on motion of the Chief Engineer.

Mr. Hanley said that he desired to say a word about some of the new buildings going up in the city. He said that he had seen one brick building of three stories being put up on Upper Main street where wooden pillars were being used, which he considered dangerous to life. He thought this should be stopped.

It was stated that the building in question was outside the fire limits, and Mayor Bryson remarked that it was for just such cases as these that a building inspector was needed. After the usual talk, the case was referred to the Chief, with instructions to make an investigation and report to the board.

The report of the Chief Engineer for the past fiscal year was submitted, and, on motion of Mr. Kuhrts, was referred to the Council, with the recommendation that it be printed with the other reports. The report, after giving the force, and number of engines in service, states that the force is composed of men who have the welfare of the city at heart, and that, for efficiency, etc., the department is the equal of any in the country.

A petition was received from the foremen of the various companies, stating that, when the salaries of the callmen had been readjusted, they had been overlooked, and asking that they be advanced in proportion. Mr. Hanley stated that the matter had been brought up in the Council, and that it was thoroughly understood, which view was concurred in by the other members of the board, and the Chief Engineer was instructed to make out the pay roll accordingly.

Several applications were received and placed on file, after which the following appointments were made for the new engine, No. 5, at the corner of Pine and Hope streets, to take effect January 14th: Engineer, Hugh Heany; drivers, M. Moriarty and E. Spencer; callmen, William M. Green, foremen; J. T. McMann, J. T. Collins, S. Springer, Walter Myers, Charles Meyer and Fad Springer.

Adjourned.

GAMBLERS.

A Small Game Run in Last Night by the Police.

The first raid on the gamblers under the new administration came off last night, the "stud" poker game in the Philadelphia Saloon on Main street, next to the Club Theater, being pulled by Detective McCarthy and Officer John Bryson, Jr., and 24 sports being captured. The dealer was locked up in default of $100 bail, and most of the players and spectators, who were required to put up $25 and $10, respectively. Chief Cooney said last night that every game in the city would be raided, and that the war would be kept up until all were closed up. The gamblers were flocking into the city, as the report had got out that gambling was licensed, but that they would find out that they were mistaken. As for himself, he would prefer to be put out of office for doing his duty, rather than for not doing it, and would govern himself accordingly.

The following order was posted in the police station last night:

"Officers cognizant of the commission of any crime shall immediately report the same to the Chief of Police; they shall also report all circumstances which may come to their knowledge that would tend to the arrest of criminals or prevent the perpetration of crime. Negligence of this will involve removal from office.

"It shall be the duty of every police officer to report to the Chief of Police each and every fact or circumstance which may be within their knowledge, or which may be reported to them, or of which they may in any manner become possessed, concerning any crime, especially any felony, gambling-houses, houses of prostitution, and places where idlers, "macs" and other disorderly and suspicious persons may congregate.

"By order of T. J. COONEY,
"Chief of Police."

It is only a fact to state that every faro bank in town was running last night, and that to get the stud poker outfit the officers had to pass every game in the city. There are likely to be some interesting developments in the very near future.

Installation.

The officers of Gen. Lyon Camp No. 1, Sons of Veterans, of this city, were installed last evening by Col. C. J. Callahan. The following are the new officers: Captain, F. L. Baldwin; First Lieutenant, J. A. Medlar; Second Lieutenant, C. L. Easton; Camp Council, H. Gooding, J. A. Dorward and C. C. Johnson; First Sergeant, Robert Brown; Quartermaster's Sergeant, L. C. Wells; Sergeant of Guard, J. A. Dorward; Corporal of Guard, C. C. Johnson.

One of the pleasantest features of the evening was the presentation of the Iron Cross by Col. C. J. Callahan to Capt. F. Eastman, the retiring commander.

Delegations from Fremont and Phil Kearney camps were present.

How the Money Goes.

Statistics compiled by Aaron Smith for the forthcoming report of the County Auditor show that the cost of carrying on the County Hospital and Poor Farm the past year was $75 573.36. To this should be added about $10,000 charged to the current expense fund, making the total cost about $85,000.

The expenditure for maps during the year was $11,646.75.

FATAL RAILROAD ACCIDENT.

An Old Man Run Into and Killed Yesterday.

It was reported in railroad circles yesterday that a terrible accident had taken place on the Southern Pacific road a short distance this side of Colton. The matter was kept as quiet as possible, as is the general custom among the head men of all railroad companies. But as near as can be learned, the facts are about as follows: It seems that an old man, who is quite deaf, was about to cross the track near a bend in the road, and he did not see the train until it was almost on him. He did all in his power to get out of the way, but his horses became frightened and refused to move, and before he could get out of the wagon the engine was on him. His wagon and horses were thrown several feet in the air, and the horses came down on the track in such a way that their bodies were torn all to pieces. The old man struck on a rail near the track and his brains were knocked out. The train was stopped as soon as possible. The engineer claims that he whistled and rang his bell, as the law requires, at the regular distance from the crossing, and when he saw the team on the track he did all in his power to bring his train to a standstill. The name of the old man could not be learned last night.

ANOTHER ACCIDENT.

It was reported on the streets yesterday afternoon that the coast line train to San Diego had been wrecked a short distance from the city, and that two brakemen and the baggage man had been killed. The true facts, however, were soon learned, which put a different phrase on the matter. The accident occurred about three miles from the city, half a mile beyond Ballona Junction, where the rear part of the engine gave way, overturning the baggage car, and causing the smoker to leave the track. Only one man, William Bowie, the baggage-master, was injured, and he was brought to the city on Peck & McCoy's ambulance and taken to the Sisters' Hospital. Mr. Bowie is seriously, but not fatally injured. The track is torn up for about 100 yards, but there will be no interruption to travel.

MARKS OF ESTEEM, ETC.

Sheriff Aguirre is Presented with a Diamond Badge.

About sixty politicians and office-holders met in Detective A. B. Lawson's office in the Lanfranco building last night to present Sheriff-elect Martin Aguirre and Constable Clements with tokens of the high esteem, regard, etc., etc. Their enthusiasm and mutual regard was greatly increased by the visible presence of several baskets of champagne, one of which was opened between speeches.

The main feature of the evening was when Hon. Henry Hazard rose to his feet and presented Martin with a handsome diamond badge. The present was a complete surprise, for the reason that Martin had been invited to attend under impression that the boys were to present Constable Clements with a badge. Martin replied as best he could, after which District Attorney Kelly presented Constable Clements with a gold badge as a mark of esteem, etc. A basket of champagne was then opened and emptied. A basket of champagne was again opened and emptied. "Dad" Brierly, who will leave today for Sacramento, presented District Attorney Kelly with a handsome watch chain. A basket of champagne was again opened and emptied. The others then presented each other with more champagne as a mark of their esteem, etc., and the meeting adjourned. All of Sheriff Aguirre's deputies, who will put on their war paint tomorrow, were present and seemed to be on the best of terms with each other.

ECZEMA CAN BE CURED.

The most agonizing, humiliating, itching, scaly, and burning Eczemas are cured by the Cuticura Remedies, when physicians and all other remedies fail.

I have been afflicted since last March with a skin disease the doctors called Eczema. My face was covered with scabs and sores, and the itching and burning were almost unbearable. Seeing your CUTICURA REMEDIES so highly recommended, concluded to give them a trial, using the CUTICURA and CUTICURA SOAP externally, and RESOLVENT internally for four months. I call myself cured, in gratitude for which I make this public statement.

Eczema Three Years Cured.

CUTICURA REMEDIES are the greatest medicines on earth. Had the worst case of Salt Rheum in this country. My mother had it twenty years and in fact died from it. I believe CUTICURA would have saved her life. My arms, breast and head were covered for three years, which nothing relieved or cured until I used the CUTICURA RESOLVENT.

Eczema on Baby Cured.

My baby has been troubled with eczema on his face, neck, head, ears and entire body. He was one mass of scabs, and we were obliged to tie his hands to prevent his scratching. I have spent dollars on remedies without effect, but after using one box CUTICURA and one cake CUTICURA SOAP the child is entirely cured. I cannot thank you enough for them.

Eczema on Hands Cured.

Two years and a half ago Salt Rheum broke out on my right hand. It appeared in white blisters, attended by terrible itching, and gradually spread until it covered the entire back of the hand. The disease next appeared on my left hand. I tried many remedies, but could find no cure until I obtained the CUTICURA REMEDIES, which effected a speedy and permanent cure.

A Word About Catarrh.

"It is the mucous membrane, that wonderful semi-fluid envelope surrounding the delicate tissues of the air and food passages, that Catarrh makes its stronghold. Once established, it eats into the very vitals and renders life but a long-drawn breath of misery and disease, dulling the sense of hearing, trammelling the power of speech, destroying the faculty of smell, tainting the breath and killing the refined pleasures of taste. Insidiously by creeping on from a simple cold in the head, it assails the membranous lining and envelops the bones, eating through the delicate coats and causing inflammation, sloughing and death. Nothing short of total eradication will secure health to the patient, and all laxatives are simply procrastinated sufferings, leading to a fatal termination. SANFORD'S RADICAL CURE, by *Inoculation* and by *Internal* administration, has never failed; even when the disease has made frightful inroads on delicate constitutions, hearing, smell and taste have been recovered, and the disease thoroughly driven out."

SANFORD'S RADICAL CURE consists of one bottle of the RADICAL CURE, one box of CATARRHAL SOLVENT, and IMPROVED INHALER, neatly wrapped in one package, with full directions; price, $1.00.

Nearly 100 000 Cases Treated.

All diseases of the respiratory organs treated by the most improved medical inhalations and the Compound Oxygen treatment which has such a world-wide reputation in lung and nervous affections.

We take pleasure in announcing to the public the fact that of late we have introduced the COMPOUND OXYGEN TREATMENT with our system of the practice in the cure of Asthma, Bronchitis, Consumption, Dyspepsia, Insomnia, Sore Throat, Catarrh, Rheumatism and Nervous Prostration.

As is well known, oxygen is the life-giving principle in the air we breathe and ozone in the air imparts that happy and buoyant feeling after thunderstorms. Persons often require more oxygen than is in the air around them and caus doors and windows to be opened, tear off collars, loosen the waist and call for a fan to displace the stifling and bring fresher air or more oxygen. Traveling is done mainly to resorts where the air contains more oxygen, and mountains are ascended to breathe the ozone, which is light and ascends from the earth.

Oxygen and ozone are gases, and must be stored up and used by inhaling them. Our apparatus for storing and giving these gases, compounded with other suitable agents, is perfect; and although they are not a cure-all, yet they are undoubtedly the greatest invention made in the last 20 years in any department of medicine, and the results are truly wonderful.

Oxygen acts by purifying the blood, thereby increasing the circulation, promotes absorption, improves digestion and assimilation, increases the capability of the lungs, and acts as a gentle stimulant to the nervous system.

The London, England, Lancet very truthfully says: "The Compound Oxygen treatment is the greatest discovery of the nineteenth century." Clergymen, statesmen, lawyers, doctors and all classes indiscriminately, whenever it is introduced, both use and recommend it.

I have seen so many cases of lung diseases cured that I do not consider any case hopeless unless both lungs are seriously involved. Even then the inhalations aid us in dissolving the mucus and in contracting and healing the cavities, which nothing else can do with the same success.

The very best references from those already cured.

ANNUAL TRADE NUMBER,

—CONTAINING—

A COMPLETE REVIEW OF THE YEAR.

Fifty-six Large Pages. Equivalent to a Two Hundred Page Book.

The Annual Trade Number of THE TIMES, now ready, is the most complete and interesting publication of that character ever published in Los Angeles.

NOTABLE FEATURES—It contains a business review of the year, embracing a great mass of valuable facts bearing on the city and county; a thorough exposition of our natural resources—mineral, vegetable, commercial and climatic; a review of the rise and progress of the boom, with solid proofs that the country is now in better condition than it was during the height of the real-estate excitement; a carefully compiled exposition of the varied inducements which Southern California offers to the health-seeker, the home-seeker and the tourist, besides a number of interesting and valuable special articles on pertinent subjects. It contains more solid information about the country than could be crowded into the compass of a hundred long letters, and for a few cents and the expenditure of a few minutes' time in writing the address you can send a friend more information than you could write in a month, even if you had all the facts at hand. For a dollar you can supply ten families in the frozen East with information that may induce them to join the army of pilgrims to Southern California, to their own and the country's advantage. Thus, whether viewed from the standpoint of friendship or self interest, it will be seen that no better use can be made of a dollar than by purchasing the crowding additional copies of the great Annual Trade Number of THE TIMES. Not one-tenth of the pleasure can be bestowed in any other way for the same amount of money.

This year the sheets of the Annual are stitched, thus putting the paper in a shape to be more conveniently read and longer kept intact. This arrangement renders the Annual far more valuable to

PUBLIC NEEDS,

AS SET FORTH IN DETAIL BY THE BOARD OF TRADE.

Memorials to Congressional Representatives, the State Legislature, the Postoffice Department and the City Council—A Number of Very Important Measures Commended.

ROOMS OF THE
LOS ANGELES BOARD OF TRADE,
LOS ANGELES (Cal.), Jan. 4, 1889.

At a meeting of the Board of Directors of the Los Angeles Board of Trade, held on the above date, the following resolutions were unanimously adopted:

WHEREAS, the population of the southern counties of this State has, within the last few years, increased enormously, which increase includes the usual proportion of insane people and criminals; and

WHEREAS, the present State institutions for the custody and care of these classes of persons are distant over five hundred miles, thus making the cost of transportation of those committed thereto an intolerable burden and multiplying the chances for escape; and

WHEREAS, the growth of the northern and central portions of this State has rendered the existing institutions entirely inadequate to the accommodation of persons committed from those sections alone; therefore be it

Resolved, that the establishment of a branch State insane asylum and a branch State prison at or near the city of Los Angeles is an imperative necessity, and that our Senators and Representatives are requested to use every proper means to secure the necessary legislation therefor at the ensuing session of the Legislature of the State of California.

Resolved, that a copy of these resolutions be transmitted to the Senators and Representatives of this section of the State in the Legislature of the State of California.

THE NEW CITY CHARTER.

WHEREAS, the present charter of the city of Los Angeles was adopted in 1875, when our population was small and our municipal needs simple; and

WHEREAS, the rapid growth and development of this city has caused a corresponding increase and complexity in our municipal affairs; and

WHEREAS, the present charter is entirely inadequate in its provisions to meet our present exigencies, and many and great abuses flourish in our midst for want of corporate authority to deal with and rectify them; and

WHEREAS, our increase and advancement continue at such rate that to wait for the next United States census would cause the aforesaid municipal limitations, and the abuses consequent thereon, to become an intolerable burden; and

WHEREAS, a new charter, suited to our present and prospective needs, has been carefully compiled by a board of freeholders elected for that purpose, and after full consideration and discussion of the same it was adopted by popular vote at a special election called for that purpose; therefore be it

Resolved, that we press upon our Senators and Representatives in the Legislature of this State the necessity of immediate legislation for the passage of our new charter, and request them to use their best efforts to get the same enacted as early in the session as possible.

FOREIGN EXHIBITS.

WHEREAS, this Board of Trade recognizes the fact that in the proposed exhibits in London, England, and Paris, France, of the products of our country will be of great advantage to our State in general and Southern California in particular; and

WHEREAS, the expense attending these exhibits will necessarily be large and must be fully sufficient for the success of said exhibits; and

WHEREAS, Southern California will, in our opinion, receive great benefit from these exhibits; therefore be it

Resolved, that our Representatives in the Legislature be requested and urged to lend their assistance for an appropriation sufficient to make the exhibits thoroughly successful, and in keeping with the enterprise for which our State's reputation is so well established.

PROTECT THE FORESTS.

WHEREAS, the preservation of the springs and streams is of vital and paramount importance to the citizens of California, both for irrigation and domestic use; and

WHEREAS, the integrity of the water supply depends upon the protection of the trees and brush on our mountain watersheds, without which covering floods and torrents must alternate with destructive drouths; therefore be it

Resolved, that the Los Angeles Board of Trade indorses the active and earnest work of the State Board of Forestry in the protection of our mountain water sheds under defective laws; and

Resolved, that the State Legislature is especially requested to give a liberal support to the new forestry experimental stations, which are already greatly encouraging tree-planting throughout the State, and which, if properly supported, will prove not only instructive aids to tree-planters, but beautiful places of resort.

Resolved, that the thanks of our citizens are especially due to Abbot Kinney, Esq., chairman of the State Board of Forestry, for his untiring efforts in the promotion of a cause so essentially necessary to our county.

A MILITARY POST.

WHEREAS, the City of Los Angeles, by reason of its proximity to the sea and to the Mexican line, is a desirable and convenient place for the location of a military post or fort; and,

WHEREAS, troops can be massed at any desirable point from Los Angeles city more rapidly than from any other place in this section of the United States, by reason of the superior railroad and steamer connections; and,

WHEREAS, the subsistence for both men and horses can be procured here at rates much lower than at any post in this military department, and supplies handled at a much less cost; and,

WHEREAS, the superiority of this climate offers advantages for the recuperation of troops and animals exhausted with arduous services in the Territories; and,

WHEREAS, land owners here have offered to this Board of Trade, and this board can guarantee to the United States Government sufficient land free of all charge for parade ground, the erection of barracks, etc.; therefore be it

Resolved, that Los Angeles city is a central, desirable and economical point for the establishment of a military post and depot of government supplies;

Resolved, that our Senators and Representatives in Congress be requested to make every effort to have a military post and depot of government supplies located here.

THE SUBURBAN POSTOFFICE.

WHEREAS, the present general postoffice in this city is now located more than a mile from the business center, to the great inconvenience of our citizens; and

WHEREAS, the loss of time to business men in going backwards and forwards to the postoffice in its present location is a burden too grievous to be borne; therefore be it

Resolved, that this Board of Trade urges upon the United States Postoffice Department the immediate establishment of a postoffice station on North Main street, at or near the site of the old postoffice, or at some other convenient place near the business center of this city; and

Resolved, that we request our Senators and Representatives in Congress to use their utmost efforts to secure for us this needed relief without delay.

SEWERAGE.

To the Honorable, the Mayor, and Council of the city of Los Angeles:

WHEREAS, the population of this city is continuously and rapidly increasing, and, outside the small area drained by the present sewer system, the cesspools and vaults are constantly multiplying and impregnating the soil with filth and the seeds of disease, and

WHEREAS, if the soil of this city is once allowed to become saturated with sewerage, it must effect the death rate disastrously for many years to come, and prove an irremediable injury, and

WHEREAS, the healthfulness of the city is one of its most material advantages; therefore, be it

Resolved, that a comprehensive system of sewerage be arranged with reference to both present and future needs for not less than 300,000 inhabitants, is an imperative necessity to the welfare and prosperity of this community, and should be adopted without delay, and constructed as rapidly as possible, and

Resolved, that it is the opinion of the directors of this Board of Trade that the output to the Pacific Ocean is the only practicable and safe system proposed; and

Resolved, that the City Council of this city be earnestly pressed to take immediate action in the matter, and provide for and proceed to construct such a system of sewers as will remove completely, safely and inoffensively the excreta of the city.

HOUSES OF PROSTITUTION.

WHEREAS, Alameda street in this city, and its intersecting streets, are among our principal thoroughfares; and

WHEREAS, the houses of prostitution now existing on that and adjacent streets are a public nuisance, depreciating the value of property and violating public decency; therefore be it

Resolved, that this Board of Trade begs the City Council to cause the immediate and summary removal of these disreputable places from this locality, and their confinement, if they must exist at all, within other and less conspicuous limits.

BUILDING STATISTICS.

WHEREAS, many inquiries are received from abroad by this board as to the number, size, cost, purpose, etc., of the buildings in course of erection in this city, which inquiries cannot be answered for the lack of any record thereof; and

WHEREAS, a reliable record of such permanent improvements would be the best evidence of our growth and prosperity; and

WHEREAS, the temptation to flimsy and insecure construction is too strong for some property-owners to resist, and leads to grave public danger; and

WHEREAS, a memorial from this board upon this same subject was laid before the City Council of this city on July 2, 1888, and no action has yet been taken thereon; therefore be it

Resolved, that it is, in the opinion of this board, eminently necessary that an office of Inspector of Buildings be created, and that a suitable person be appointed to fill the same; and

Resolved, that no person should be allowed to erect any building within the corporate limits of the city until he or she has filed a statement with said Inspector of Buildings, setting forth the name of the owner, the location, size, height, construction, cost and intended use of any building proposed to be erected, and obtained a permit from that officer for the erection of the same; and

Resolved, that we urge upon the City Council the need of immediate action in this matter, and ask that the necessary ordinances be enacted without delay.

It was also resolved that the secretary forward a copy of the above resolutions to the parties named therein.

KINGS DAUGHTERS.

Annual Election of Officers Yesterday.

The usual meeting of the King's Daughters was held yesterday afternoon in the parlors of the Fort-street church.

The attendance was large and the exercises of unusual interest.

Mrs. Elberson gave an interesting talk bearing reference to the King and His Daughters, prefacing her remarks with the scripture passage: "I counsel thee to keep the King's commandment."

Mrs. Otis read a poem which was well adapted to the occasion.

The president introduced to the members Mrs. Adams of Oakland, who gave an account of the work of the society in that city, which has been very effective in the Japanese missions, the Foundlings' Home and among the sick and needy. There are 70 members enrolled.

Mrs. Otis, in a few well-chosen words, tendered her resignation as president. Although thoroughly in sympathy with the work, the pressure of other duties compelled her to take this step.

The treasurer submitted her report for the six months ending December 31, 1888. During that time 100 members have been enrolled.

The election of officers for the ensuing year then took place, with the following result: President, Mrs. H. A. Birdsall; vice-president, Mrs. J. M. McPherron; treasurer, Mrs. N. I. Wade; secretary, Miss H. B. Freeman; assistant secretary, Mrs. Elberson.

The society then adjourned, to meet the first Saturday in February, at the same time and place.

THE House has passed the Senate bill to incorporate the Maritime Canal Company of Nicaragua.

THE importance of fostering the silk industry in California is shown by the fact that during the year ending June, 1888, over $12,000,000 worth of raw silk was imported through San Francisco from Japan.

WHY do the Sons of Veterans continue the absurd practice of trying to struggle along under a load of military titles too big for them to carry, and which they never earned? *Porque? Quien Sabe?*

THE German Government has let Prof. Geffcken, who has been in custody on charge of high treason, go free, and abandoned the prosecution. Bismarck probably finds enough to attend to in possible American and English complications.

FURTHER details of C. P. Huntington's letter, on the subject of Chinese labor, places his action in still more unfavorable light than at first appeared. It is to be hoped that eastern people understand that Mr. Huntington only represents a very limited circle on this coast.

A SETTLER writes from Washington Territory to the postmaster here that last fall he sold his farm in Oregon and moved to Kittitas county, Wash., which he calls a "detestable hole in the ground," but he still hopes, "as the fools are not all dead," that he will yet live in a white man's country, and asks for some information about California. He shall be supplied, and you will see him in the g. c. of C. p. q., if not sooner.

ANTHONY COMSTOCK seems to have outlived his usefulness, if he ever had any. A few days ago he caused the arrest of a German in New York, for violating the law against lotteries, in having raffled a couple of pictures for the benefit of a friend who recently lost two children, whose wife is dying, and who is in destitute circumstances. One would suppose that the Society for the Suppression of Vice could find better work to do than this.

NEW YORK is the biggest American city and it is beginning to suffer from that curse of extreme poverty among its lower classes, which characterizes the large European centers of population. During the past year 50,271 poor people in New York city were forced to apply for support or relief from the Board of Charities and Correction and public institutions. Of the total number 15,732 were American born, 19,618 were from Ireland, 1958 from England, 751 from Scotland, 7454 from Germany, 406 from France, 1013 from Italy, 323 from Holland, 321 from Sweden and 270 from Switzerland. There are 9765 persons in almshouses; 28,933 persons died there during the year and 487 children were born there.

THE TRADE NUMBER IN DEMAND.

It is now seven days since THE TIMES Annual for 1889 was first offered to the public. During those seven days there has been a healthy stream of purchasers calling for the paper. They have bought it singly, in twos, fours, tens, twenty-fives, fifties, and so on up to a hundred at a time, for the purpose of sending them abroad. Besides this, a great number of copies have been sold through news agents, newsboys and carriers, so that the total sales of the Annual up to date now aggregate 8000 copies—a very respectable number, in view of the comparative dullness of the season.

It is evident that the public have responded to the suggestions of THE TIMES, and have seized the opportunity to do good missionary work for Southern California by sending abroad copies of the most complete and trustworthy compilation of our resources and advantages that has ever been prepared in this section. Such is the general testimony.

Let the good work go on! We hope to sell as many more of THE TIMES Annual before the end of the present month.

Following are the prices of the Annual:

Single copies (in wrappers, postage prepaid)	.15
2 copies (in wrappers, postage prepaid)	.25
10 copies (in wrappers, postage prepaid)	$ 1.00
25 copies (in bulk)	2.50
50 copies (in bulk)	5.00
100 copies (in bulk)	8.00
1000 copies (in bulk)	80.00

With Our Compliments.

Some vicious, virulent and villainous street tattler—employed, evidently, to do the dirty work of a notorious fakir and proved scoundrel whom THE TIMES has justly held up to public execration and contempt, and whose trail the sheriff has been following like a sleuth-hound, and who is even now in a state of collapse—is pacing around, we are informed, shooting off his mud-filled, hired mouth against THE TIMES, ostensibly because it called attention—without money, without price and without solicitation—to the solid and thriving condition of one of our leading financial institutions, ascribing to us improper motives in so doing. That is a very foolish and impotent, as well as a very vicious, charge to make, you tool of a scoundrel! THE TIMES is in the habit of drawing public attention, without money and without price, to those financial and commercial features of Los Angeles which are peculiarly sound, strong and meritorious, for the sake of the truth and its effect upon people at home and abroad; for the sake of the best interests of the city, whose prosperity we, in common with other good citizens, are laboring to promote. And we have no apology to make to anybody—much less to cowards, scoundrels, embezzlers, pretenders, fakirs and their ready tools—for our course in that regard. No successful attack can be made upon our motives; it is too late in the day for those base tactics; they are the resort of desperate men, in a desperate plight, struggling in a desperate and hopeless cause. They cannot win.

We have from time to time dwelt upon the sound and healthy condition of the city banks, and recently published an exhibit, in which all of them were impartially included. The exhibit was a splendid one to proclaim to the world. It cannot fail to do the city great good abroad, especially wherever its financial soundness and business condition have been unjustly assailed. What would these low-bed cattle—these political mustangs and social scrubs—have us do? Would they have us proclaim to the world that our banks, or any of them, are wildcat concerns, on the eve of collapse, like the fakirs themselves? Go to, cattle! We shall pursue the even tenor of our own way, and continue to "do the State (and city) some service."

Plenty of Chances for the Land-hungry.

Proofs continue to multiply that there is plenty of land in Southern California which may be had on terms easy enough to suit any one who is really looking for land, and desirous of finding it. The latest we have run across is the following letter, received at this office, from W. H. Goucher, president of the Cucamonga Land and Improvement Company:

Your paper having taken the initiative in exposing the cry that no cheap lands are to be had in Southern California, I desire to call your attention to the above [lands of his company], not to get any free advertising, but to let outsiders know that a man with pluck and a little money can get a home in Southern California. Our land is conceded to be first-class for citrus fruits. To parties who will plant the same in two or three-year-old budded navels and farm for three years, we will give one-half of the land with one inch of water to 10 acres. Terms equally liberal to those who wish to plant deciduous fruits or vines.

We publish the above on its merits, without money and without price; but we will say ["private and confidential"] to Mr. Goucher that we are able to point out to him where he can dispose of a large and valuable tract of his company's land on the terms named in the last branch of his offer. ["For further information apply at this office."]

Seriously speaking, however, no man who really desires to cultivate the soil can ask for any better terms than these, and we are sure that the Northern Citrus Belt can offer no greater inducements, even leaving out of account the superiority of our climate.

Capt. Knox's Valuation.

Capt. Knox, who was interviewed by a TIMES reporter the other day relative to the value of the land ceded by the city to the Salt Lake and Utah Railway project, says he did not wish to convey the impression that the land is worth $250,000 in its present state. No sagacious business man would think of giving that sum for it. But, with the railroad built and the development that would naturally follow, he thinks the property would command $250,000, or, at least, be worth that, in due time. This statement is published in order that Mr. Knox, as well as Mayor Bryson, may be set right before the public.

Some Good Resolutions.

The Los Angeles Board of Trade commenced the year with quite a lengthy roll of good resolutions which it passed on Friday last. The first of these was one advocating the establishment of a branch insane asylum in Southern California. The necessity of immediate legislation for the passage of the new charter was pressed upon our representatives, who were also asked to work for a sufficient appropriation for exhibits of Southern California products at London and Paris, and to give a liberal support to the new foresty experimental stations. Our representatives at Washington were urged to make every effort to have a military post and depot of government supplies located here.

A strong resolution was passed on the outrageous real-estate deal frequently denounced in this journal, which located the postoffice a mile from the business center. The Board of Trade very rightly asks that our representatives at the national capital urge upon the Postoffice Department the immediate establishment of a branch at the old location or at some other convenient place. The postoffice should certainly be located inside the business quarter, and if we can't have it there we ought at least to have a branch.

Other matters resolved upon by the board were the establishment of a thorough system of sewerage sufficient for not only present but future needs, and extending to the Pacific Ocean; the removal of houses of prostitution from Alameda street to a less prominent thoroughfare, and the creation of the office of building inspector.

We are glad to notice that the board has commenced the New Year in such good shape, and sincerely hope that that organization will keep up the good work, and be followed by other organizations and by private individuals.

THE SAUNTERER.

The nearest approach to the winter sports of the East that we have here in this sunland I saw yesterday, when a crowd of happy, wide awake boys climbed to the heights above Hill street for a grand toboggan slide. But instead of the ice and the snow of the eastern hills there was underneath them the green lush grasses, waving in the warm and splendid sunshine. The burr clover and alfileria covered the ground, and down the steep incline swept the tobogganers, the grasses yielding softly as they passed, and overhead the birds singing as if they, too, were glad in the joyousness of these happy-hearted youngsters. Better the green hills and the song birds than the ice palaces and the snowdrifts of winter climes. Fairer the blossoming clover than the silver fret work of Jack Frost. Sweeter the song of the birds than the howling of the winter tempests. More lovely the swaying palm and orange than the lone and leafless boughs of the naked forests upon the Atlantic borders. Winter, such as this, I love it!

***

I saw two happy brown-faced boys the other day as I took a drive out into the country. It was January, you remember, but those little fellows were bare-footed and bare-legged. The small trousers came only to the knee, but below them their plump, round limbs showed as they trudged along in the sticky mud of a wayside gutter. Their "team" was an old tin pan, to which one of the boys was harnessed, while the one behind snapped his whip and shook his lines as they ran on with shouts of merry laughter. The deeper the mud the greater their bliss, and once or twice their improvised team was overturned, and their echoing laughter came to me in delightful quavers, suggestive of souls that knew no care.

***

I believe in boys. They are an institution that the world could not well get along without. I like them full of mischief and of noise, and full of invention. I should soontire of the Sunday-school-book kind, those goody-goody fellows who never do anything that they ought not to do—who are prim, and demure, and saintly. Give me rather boys like those I saw in the gutter, bright-eyed, rosy-cheeked, and a bit aggressive, up to all sorts of boyish pranks which are not really wrong—real, stirring, go-ahead types of young America.

AMUSEMENTS.

LOS ANGELES THEATER.—*Uncle Tom's Cabin* plays its lingering last tonight.

On Wednesday night a company of well-known society amateurs from San Diego will give a little drama called *A Woman Scorned*. They received considerable praise at home, but their performance here will prove more as to their real merit, removed as it will be from the too ready approval of friends. A delegation of these well-wishers will accompany them.

The play will be given for three nights and a matinée.

On Saturday night the theater will be occupied by the Ellis Club, which will give there the third of its annual concerts. Following is the programme:

Part I.

"Where Would I Be?"
"Heinz von Stein."
Tenor solo, "Nun of Nidaros"—Mr. Shawhan.
String quartette.
"Champagne Song."
"Young Siegfried."

Part II.

"Old King Coul."
"The Huntsman's Farewell."
"The Chafer and the Flower."
String quartette.
Tenor solo, "Chorus of Spirits and Hours"—Mr. Walton.
"Peasant's Wedding March."
"Pilgrims' Chorus."

RECITAL.—The recital that was deferred from December 22d by Prof. Ludlam and others of the faculty of Ellis College took place last night at Bartlett's Hall. Unfortunately, Mrs. Ludlam was ill and unable to carry out her share of the programme, but the others very kindly added to their parts, and thus filled out the programme.

PROGRAMME.

"Schiller-March" (F. Liszt)—Miss Cobb.
"On Mighty Pens," Creation, (Haydn)—Miss Long.
"Eugene Aram's Dream" (Hood)—Henry Ludlam.
Nocturne in d flat—Miss Cobb.
"Spring" (Becker)—
Encore—"My Lady's Bower"—Miss Long.
"The Chariot Race," from Ben Hur (Wallace)—Henry Ludlam.
"Polonaise," a flat major (Chopin)—Miss Cobb.

Prof. Ludlam's merits as an elocutionist are already well known, and the selections of last night could only serve to enhance them, unless one might object to so sudden a descent as all the way from the horror of "Eugene Aram's Dream" to the mild humor of "How I Caught the Mouse."

Miss Long's method is excellent, and her voice agreeable and round, but it is extremely difficult to distinguish the words, especially in the little ballad where the words were half the battle.

Miss Marie Cobb was the pianist of the evening. Her choice was of extremely difficult music, which seemed to be wholly at the ends of her fingers, and was executed with great vigor and courage, especially the great Polonaise in A flat major.

AT THE OPERA-HOUSE.—One cannot but suspect that Lydia Thompson, like Lydia Pinkham, is immortal, for nothing is more certain than that she will appear at the Opera-house tomorrow night. She, assisted by a promised 50 English beauties, will give the classic story of *Penelope* in somewhat modern style, and probably very modern costume. Later in the week *Columbus* will be given.

WORDS OF PRAISE.

Cotemporary Opinion of the Annual Trade Number.

Among kindly expressions of press opinion regarding the New Year's issue of THE TIMES are the following handsome utterances. For the distinction thus conferred by its contemporaries THE TIMES returns thanks:

"THE MOST VALUABLE."
[Pasadena Daily Star.]

The annual trade edition of the LOS ANGELES TIMES was received this morning. It is not too much to say that it is the most valuable paper ever issued from that office. It contains 56 pages, nearly all of which is solid reading matter, the principal space [in the descriptive part] being devoted to a history of Los Angeles county and a statement of its resources. The statistics presented cover every interest and have been prepared from the latest data, which makes them fresh and of real value.

The matter relating to other counties of South California is replete with information that can be relied upon, as it has been prepared by local writers specially selected for their fitness for the task. Pasadena is given over a page, the author of the contribution being Prof. Holder.

THE TIMES has done Southern California a substantial service by the publication, and speaking for this end of the San Gabriel valley, the Star very cheerfully bears testimony to the fact, and advises its readers to see the paper and send it to their eastern friends.

"SURPASSES ANYTHING OF THE KIND."
[Santa Barbara Press.]

The LOS ANGELES TIMES Annual Trade Number is a magnificent paper, containing 56 pages of four columns each, of well-prepared information about Southern California. It surpasses anything of the kind ever attempted in this part of the State and should be widely circulated. It will do much good in disseminating the kind of information sought for by intending comers to California. It is not in the form of a pamphlet, and will therefore not be looked upon as a mere advertising sheet. Santa Barbara gets its full share of attention, and we predict a large sale of the Annual to our citizens and visitors. A more complete history of the present and immediate past of Southern California is not in print. It contains very little advertising matter, and the price will be regarded low; 15 cents for a single number, two for 25 cents, postage paid, or $8 per hundred in bulk.

REPLETE WITH FACTS.
[San Diego Union.]

The papers of Southern California outdid themselves in their 1st of January editions, the LOS ANGELES TIMES sending out an annual of 56 pages, replete with facts bearing on the past, present and future of this section. Mr. Van Dyke wrote the San Diego department of the annual, and presented the claims of this county as only his experienced pen could do it.

"GLADLY WELCOMED."
[San Bernardino Index.]

The Annual Trade Number of the LOS ANGELES TIMES, comprising 56 pages of unusually interesting matter descriptive of South California, is on the Index's table, and gladly welcomed. It is replete with information. A couple of very readable articles upon San Bernardino county are incorporated in its pages.

AT POMONA.
[Pomona Progress.]

There is no denying the fact that the LOS ANGELES TIMES is treating Pomona very generously this season, and our little city is indebted to that journal for numerous editorial favors and compliments. The rapid growth of the LOS ANGELES TIMES' circulation here is abundant proof that the favors are appreciated.

"SPECIALLY GOOD."
[Southern California Christian Advocate.]

The city papers all issued annuals, which are useful for the large amount of information given for so small a sum. That of THE TIMES was specially good and is worthy of preservation.

The Iowa Association.

The entertainment given by the Iowa Association last night at Grand Army Hall, No. 25 North Main street, was a success, and all who were fortunate enough to be present were well pleased. The musical and literary talent was of the best available material, and the repeated encores evidenced the appreciation of them by their audience. The programme reflected credit alike on the managers and performers. The Association will give its next entertainment on the third Saturday night of the present month.

Runaway Accident.

Yesterday afternoon about 2 o'clock, while out riding, Mr. and Mrs. Johnson, accompanied by their little boy, met with a severe accident, their buggy being wrecked and Mr. and Mrs. Johnson being thrown out and knocked senseless, the little boy, however, escaping without injury. The parties were taken to their residence, at the corner of Morris and Hill streets, and medical aid summoned. Both were still unconscious at 5 o'clock, but it was thought they would recover. Mr. Johnson is in the employs of Childs & Silent.

The Jail Catch.

Four persons were landed in the County Jail yesterday charged with burglary. R. B. Manning and J. J. Ginnachis by Deputy Constable Clements, and Leomora Rodriguez and Hubert Lopez by Deputy Naud, the latter two being boys who robbed an old man near the Plaza. Two petty larcenists were also incarcerated, H. E. Wilson who stole a pair of ladies' shoes in this city, and Archie Muir, from Pomona. Twelve "vags" were also brought down from Lancaster to serve from five to ten days.

The Illinoisans.

The Illinois Association gave its regular weekly social last night in G.A.R. Hall. An interesting programme of musical and literary exercises was presented to the large audience present. Prof. Stamm and son, Prof. Bornemann, Miss Mamie Short, Miss Richards, Mrs. M. Catching, Mrs. Layton and others took part in the exercises. The chairman, Ralph E. Hoyt, read a satirical poem on himself entitled "A Tenderfoot's Experiences in Angel Town."

Change in Law Firm.

The law firm of Wells, Van Dyke & Lee has been dissolved on account of the election of Judge Van Dyke to the Superior Court bench, and in the future the firm will be known as Wells, Guthrie & Lee. The new partner, Francis B. Guthrie, is from Titusville, Pa., where he was formerly City Solicitor. He is a graduate from Jefferson College, and was a lawyer of large practice "in oil" at Titusville.

Escaped from the Pasadena Jail.

Word was received at police headquarters yesterday that the two Chinamen who got away with three watches at Brown's jewelry store, at Pasadena, Wednesday night, and who were captured by Detective Glass in this city the following morning, and turned over to the Pasadena authorities, had made their escape from jail. The police were asked to keep a lookout for them, but up to this morning nothing had been heard from them.

Low Rent.

Lower rent means lower prices for goods, and as I will soon reduce my rent to less than one-third the present rate and occupy a better store in the new Gage building, corner Fifth and Fort street, I will, until removal, about 10th inst., sell some fine goods at actual cost. Carriage, coupe, phaeton and buggy harness, saddles, whips robes, blankets, etc. All will be sacrificed for cash this week. Myron P. Tarble, corner Spring and Fourth streets.

WASHINGTON.

Sharp Strictures Against the Railways.

Northern Pacific Charged with Demoralizing Dakota Sioux.

A Discussion of the Monroe Doctrine in the Senate.

Congress Urged to Give Substantial Aid to the Silk Industry in California—Sugar Men Given a Hearing Before the Tariff Committee.

By Telegraph to The Times.

WASHINGTON, Jan. 5.—[By the Associated Press.] The Committee on Indian Affairs, in a report accompanying the bill providing for a division of the Sioux reservation, says: "The Sioux Indians are completely under the control of a few arrogant and self-conceited chiefs, and these chiefs are largely under the control of the Northern Pacific and Northwestern Railroad companies, and a few avaricious white or "squaw men," who, with the few chiefs, are reaping large fortunes from the common property of their own people. The Northern Pacific Railroad, as we are advised, own large amounts of real estate in Dakota that they desire to sell at profitable figures, and if this bill should become a law, and thereby open up 11,000,000 acres to settlers at nominal figures, compared with the prices they ask for theirs, the market for their land will be closed for many years to come. So they, with their mighty power, oppose the bill. The Northwestern Railroad Company, running to Pierre, on the Missouri River, is interested, so we are advised, in another road that runs around this great reservation to the Black Hills, and does all the carrying trade for this vast section. To open up this reservation would not only compel the Northwestern Railroad to complete its own line through to the Black Hills (a thing they do not want to do), but it forces the Chicago, Milwaukee and St. Paul and other competing lines through. Therefore they oppose the measure. The committee recommends that the bill pass, and asks Congress to give these Indians all the land they can use, and teach them that governments are not created to support them, but to protect them, and that, like other people, they must work."

CALIFORNIA'S SILK INDUSTRY.

The Commissioner of Agriculture today transmitted to Congress a report by Joseph Neumann on the wild native silk worm of California. Neumann asked that the appropriation of $2500 made last year to enable him to study this native silk worm be increased to $25,000, as necessary to establish temporary observatory stations wherever a good plant on which the worm feeds exists in quantities. He predicts that "by continuing the study it will not be many years before this discovery of mine of the native silk worm will be one of the greatest blessings ever conferred upon the people of the civilized world."

THE "POST" CHANGES HANDS.

Negotiations which have been in progress for some weeks were concluded this evening, by which the Morning Post, which was founded by Stilson Hutchins in 1877, passed under control of Frank Hatton and Beriah Wilkins, Democratic member of Congress from Ohio, whose term expires with the present session. Hutchins will announce his permanent retirement from journalism tomorrow morning in order to attend to other business interests.

THE VENEZUELAN AWARDS.

Senator Edmunds offered two resolutions today, which were agreed to, calling on the President for information as to Venezuelan awards, and as to what steps, if any, have been taken by the United States Government to collect monthly a quarter of the Caraccas custom receipts.

CROOKED CONTRACTS.

Investigation into the conduct of the Supervising Architect's office by the Senate sub-committee began this morning, and was conducted in secret. It was developed that Architect Freret has awarded contracts for the preparation of plans for four or five buildings to architects in Washington, and that clerks employed in his office are working on these plans out of office hours.

MISCELLANEOUS.

There was transmitted to the House today a letter from the Secretary of the Interior, in which he submits an estimate for an appropriation of $350,000, to be immediately available to meet expenses in organizing and prosecuting the survey of arid lands.

This afternoon Senator Plumb introduced a bill to create a customs commission and define its duties, which was referred to the Committee on Finance. Its object is to establish a permanent customs commission in the Treasury Department, which shall make investigations respecting the working of the tariff and which shall furnish information thereon to Congress and others.

The Department of State has received a dispatch from Berlin stating that the order expelling Louis B. Greenburg, a naturalized American citizen, from Prussia has been revoked at the instance of our legation.

The President has directed the removal of Alfred Lewis, Deputy Fifth Auditor of the Treasury, for neglect and inattention to official duties.

Mrs. Cleveland has been confined to her room since Tuesday, and Dr. O'Reilly, the President's physician, has been in attendance. Mrs. Cleveland's indisposition is believed to be due to the fatigue of the reception on New Year's day.

FIFTIETH CONGRESS.

WASHINGTON (D. C.), Jan. 5.—[By the Associated Press.] *Senate.*—In the Senate Mr. Sherman called up the joint resolution reported by him yesterday from the Committee on Foreign Relations declaring the sense of Congress in relation to the connection of European governments with any inter-ocean canal, and asked that it be passed immediately. A brief, but very interesting, discussion ensued. Mr. Sherman said the resolution was but a reassertion of the Monroe doctrine.

Mr. Teller said the only objection he had to the resolution was that it was untimely, and should have been adopted years ago, when the construction of the Panama Canal was begun.

Mr. Vest suggested that, while favoring the resolution, it was intended to have some bearing in favor of the Nicaragua Canal scheme, to which he was opposed.

Mr. Edmunds, the author of the resolution, disclaimed having been influenced by any such idea.

Mr. Call opposed the resolution as calculated to obstruct the great work of beneficence to mankind.

Mr. George regarded the resolution as a very important and necessary step.

Mr. Reagan thought the resolution should not be pressed to a vote today, but should be considered and debated. Its language, he said, was too broad and unrestricted, and claimed it an unnecessary offense to France.

Mr. Gray coincided with the views expressed by Mr. Reagan, and said that the Government of the United States should not, without grave consideration, interpose an obstacle to the work which would advance the civilization of the world.

Mr. Morgan took the view that Congress had no right to trammel the diplomatic action of the Executive by the passage of a joint resolution. If the idea was to be expressed by Congress it should be in the form of a concurrent resolution only.

Mr. Sherman treated the objection to the form of the resolution as more technical than important, but was willing to have the resolution made a concurrent instead of a joint resolution, although he thought the latter a better form, as binding the three branches of the Government. He would like to see all Nations of the world (but not governments) cooperate in the work of the Panama Canal.

After further discussion the resolution went over till Monday and the tariff bill was taken up.

Various minor amendments were offered to the next few sections, but were all rejected by the usual party vote, and when paragraph No. 336, referring to laces, etc., was reached, the Senate adjourned.

House.—The Committee on Indian Affairs reported a bill to divide the Sioux Indian reservation into separate reservations. To the calendar.

Mr. Reed of Maine called up the resolution to abolish for the remainder of the session the call of States for introduction of bills on the first and third Mondays of each month. On ordering the previous question the vote stood yeas 98, nays 20. No quorum.

A call of the House was ordered.

Quiet and indolence, with some badinage, followed.

Mr. Springer introduced a joint resolution proposing a constitutional amendment authorizing Congress to make a uniform law of marriage and divorce. Referred.

Mr. Springer moved a resolution directing the Sergeant-at-arms to telegraph absent members, requesting them to return on Monday. Carried.

Adjourned.

THE SUGAR TARIFF.

Louisiana and Kansas Producers Given a Hearing.

WASHINGTON, Jan. 5.—[By the Associated Press.] The sub-committee of the Senate Finance Committee today gave a hearing to a delegation interested in the sugar industry in Louisiana. Mr. Dymond was the speaker, and explained that the delegation came to ask that the sugar schedule as proposed by the Senate Tariff Bill be modified, on the ground that the proposed reduction in the duty on sugar would ruin the sugar industry, not only in the tropical cane of Louisiana, but also of the beet-sugar industry of California and the sorghum industry of Kansas.

At the hearing this afternoon W. L. Parkinson of Kansas and Representative Peters spoke in behalf of the sorghum-sugar producers in Kansas, asserting that if the sugar tariff was undisturbed the business would be greatly developed in the immediate future. They objected to the bounty because it was likely to be of only temporary duration.

Henry C. Minor and Henry McCall of Louisiana on behalf of the sugar planters of that State also spoke against the bounty system, and pleaded to be left under the present conditions.

NEW YORK, Jan. 5.—A Washington special says: Claus Spreckels will arrive at Washington today. California Congressmen say that his coming has nothing to do with the question of the sugar schedule in the Senate Tariff Bill. They say he wants to talk with the Commissioner of Agriculture about beet-raising and beet sugar in this country.

The Finance Committee was somewhat annoyed to learn that a big delegation of California people engaged in sugar raising are on their way East to see that the proposed bounty legislation is enacted. The committee has heard all the testimony it cares for on the sugar question. The Democratic Senators are very bitter in opposition to the proposed bounty, and insist that it is radically unconstitutional.

Republicans of the Finance Committee are practically determined upon this point, however, and they intend that the duty shall be made to pay the bounty. This bounty which they will propose is not to continue for a definite number of years, but to be announced by executive proclamation until such time as the amount of sugar produced in America shall equal half of the amount of sugar imported, when it will cease, and the duty increased to a point that will make it practically prohibitive.

CHIEF ARTHUR,

He Says the Brotherhood Did Not Surrender.

CHICAGO, Jan. 5.—[By the Associated Press.] Chief Arthur, of the Brotherhood of Locomotive Engineers, arrived here this morning, and was in conference with Chairman Cavener and other members of the Grievance Committee in regard to the agreement for ending the Burlington strike, reached last night. The conference lasted till noon, and the arrangement made was approved by Arthur. Both sides refuse to give out the terms of the settlement until they have been sent to the various lodges. Cavener says they will be made known Monday or Tuesday.

After the committee had taken its departure, a reporter was granted an audience with Arthur. The latter was very reticent.

"Is your presence in Chicago due in any way to the 'Q' strike?" was asked.

"No," replied Arthur, "I am simply passing through the city on my way to California."

"You are acquainted with the terms of the agreement entered into with the 'Q' officials?"

"Yes, sir, and I am exceedingly well pleased with them. The committee has done its work faithfully and well. The terms upon which the strike was settled are such that they all meet with the approval of every Brotherhood man throughout the country."

"What are the terms of the agreement?"

"That I am not at liberty to make public. They will first be placed before the Executive Board, which, however, is a mere formality and a courtesy due the board. The terms will not be made public before the middle of next week. It is safe to say, however, that it was far from an unconditional surrender of the brotherhood; that several items of importance to the order were conceded by the officials."

"Are you going to California on business, or merely for pleasure?"

"It is a business trip, though of course I will connect a little pleasure with it, as Mrs. Arthur accompanies me."

"What is the nature of your business in California?"

"That is something of which I cannot speak, as it is business of a private nature connected with the brotherhood."

Arthur's business in California is understood to be in connection with the threatened strike of the brotherhood engineers on the Southern Pacific road. But this Arthur denied. He will leave this afternoon for the West. Cavener was asked if Arthur was pleased with the terms of the settlement.

"Arthur expressed himself as highly pleased," said Cavener, "and said the settlement of the 'Q.' strike had taken a great load from his mind."

"Are you through here now?" was asked.

"Yes, and I leave this afternoon for Cleveland, O."

"What is the nature of your business in Cleveland?"

At this question Mr. Cavener smiled and said: "It is simply a private mission, the nature of which would not in any way interest the public."

Notwithstanding Cavener's assertion that his mission to Cleveland is a private one, it is a fact that in his pocket he carries with him the terms of the agreement with the "Q" officials, and will lay them before the Executive Board in person. This done, his labors in connection with the great "Q" strike are at an end, and he will return to his family and business in the Golden State.

A local paper says a man standing high in railway circles told a reporter this afternoon that the engineers had abandoned their claim for the abolishment of the trip system and inauguration of the mileage plan used by other roads. They had also withdrawn their demand for arbitration of the classification or graded pay rule. On the other hand the company consented to employ brotherhood men in preference to others, as fast as vacancies occurred, and would reinstate the old employés whenever it could. The black list was also done away with. It is also reported that the compromise will result in the dismissal of the prosecution of the alleged dynamiters, but this is uncertain.

Her Husband Reappeared.

MONTREAL, Jan. 5.—A man named Charest went to California 18 years ago to seek a fortune. After some time the news reached his wife that he was dead. She married again. The case is likely to come before the courts.

THE SUGAR SWINDLE

"Prof." Friend's Death Said to Be a Fake.

His Alleged Widow Able to Keep What She Has Made.

An Attempt Made to Entrap Merchants in Chicago.

How the Pretended Secret of the Process Was Kept — The Friend Party Declare the Exposure Is Only an Attempt to Freeze Them Out.

By Telegraph to The Times.

NEW YORK, Jan. 5.—[By the Associated Press.] The leading topic among the brokers and business men down town is the great exposé of the late Prof. Friend's Electric Sugar-refining Company. Secretary Robertson of the defunct concern was nearly paralyzed by a well-known Wall-street man asking him for 10 shares, offering him $10 each for them. Robertson told the man the shares were worthless. The man insisted, and the sale was effected. The purchase, it is said, is for the purpose of "squeezing" Howard when caught. Howard swore before a notary public that he had seen the "Professor" refine raw sugar by electricity. It is now hinted that Friend is not dead at all. There has not been anybody found so far who has seen his corpse. His death is said to have occurred two days before the blizzard of last March.

HOW THE SWINDLERS FLOURISHED.

MILAN (Mich.), Jan. 5.—Friend's elegant home half a mile east of here was deserted this morning. At the house of W. E. Howard, Mrs. Howard was found just setting out to join her husband and daughter, Mrs. Friend, at Ann Arbor. She is a sharp-eyed, brainy old lady with a determination not to give away what she knows farther than to say that if the New Yorkers have broken open the Electric Sugar Refinery they have "lost all their rights, and that it would be all well if the process had been lost when Friend died last March." Also that she is sure Howard and Mrs. Friend are able to take care of themselves.

Since the opening of the sugar business the Howards and the Friends have cut a big swath here, building elegant houses and living as gentleman farmers with princely incomes from some source not generally understood, though not without taint of suspicion. They bought the best, lived high, drove elegant equipages, and traveled much between here and New York. The village was greatly excited but not a whit surprised.

WHAT MRS. FRIEND SAYS.

ANN ARBOR (Mich.), Jan. 5.—Persons interested in the Electric Sugar Refining Company frauds at New York have been in consultation with attorneys here for several days past. The president of the company has been here and met Mrs. Friend, the Howards and Holsteads, all of whom live at Milan, this State. Mrs. Friend's attorney says there was no intentional fraud, but that the company expected more than was promised. She says the company was to furnish money to equip the refinery for refining sugar by Friend's "secret process."

The company alleges that the refining was to be done from sugar cane. This she cannot do. The contract her husband made was to refine the sugar at 80 cents a ton, or sell out his stock and secret for $350,000 after everything was running. The company has been running five years and put in over $300,000, but no sugar has yet been refined for the market. Mrs. Friend says the company is trying to force from her another secret, by which she makes a superior article of sugar from grapes, instead of getting the secret their contract calls for. This last secret she refuses to divulge for any amount. No arrests have been made and none even threatened by the company's agent, who returned to New York Wednesday. Mrs. Friend is the only one of the party interested in the transaction, the others being merely employés.

MORE DEVELOPMENTS PROMISED.

ANN ARBOR (Mich.), Jan. 5.—President Cotterill, of the Electric Sugar Refinery, was found at Islington this morning. He says the report that he is here to procure the arrest of Mrs. Friend is news to him. He cannot talk to the press now, but promises developments in a few days. He denounces the claim made by Mrs. Friend that the contract with her does not specify raw cane-sugar but only cane-sugar as an unmitigated falsehood. The process is far too expensive to place on market. There is no question, he says, but that the product is finer than that produced by any known process, and would sell better than ordinary refined sugar, if it could be made from raw sugar. The deception consists in manipulating refined sugar instead of refining sugar by the new process. On behalf of Mrs. Friend the claim is made that Prof. Friend invented two distinct processes, one for making a superior article of sugar from refined sugar, the other for making it from grapes, and that the latter is worth millions. President Cotterill pronounces this a humbug, but says if there is anything in the grape process the company is entitled to it.

ONLY A FIGHT FOR CONTROL.

DETROIT, Jan. 5.—The Journal's Ann Arbor special says: There is no criminal aspect in the case so far as it has developed here. President Cotterill has been making strenuous efforts to settle with the Friends, who will not give up unless they get big boodle. They still insist that their process is exactly what the contract calls for. A Journal reporter has seen the contract, and it makes no mention of manufacturing sugar from raw material. The men who pose as dupes confess this. The whole thing has been precipitated by the English stockholders. Cotterill and others who got the Englishmen to subscribe now want to get control. Mrs. Friend and Howard own a majority of the stock and the alleged secrets. The only way the dupes can determine whether or not they have been duped is to get control. Mrs. Friend is too sharp to be frightened into gi

Dakota Still Pressing Her Claims on Gen. Harrison—The Steamer Montana Sunk in a Collision—Two Towns in Nebraska Prepare for War.

By Telegraph to The Times.

WILKESBARRE (Pa.), Jan. 5.—[By the Associated Press.] Michael Ressillio, alias "Red-nosed Mike," arrested on suspicion of complicity in the murder of Paymaster McClure and his assistant Flannagan, and the theft of a large amount of money last summer, has confessed. He implicates three others. He claims not to have taken part in the actual shooting. He told detectives where the rifle used in conjunction with the revolvers, and the satchel in which money was carried were secreted near Miners' Mills, and today they were recovered.

It is stated here tonight that two of the other three have been arrested in New York, and will be brought to this city on the early morning train. The arrest and developments have created most intense excitement and rejoicing throughout this section.

Myself, or representative, will be at the place appointed, Toronto. I mean as heretofore, business. It is too late for Sullivan's excuses about a license."

A dispatch from Boston tonight says that Sullivan has decided to go to Toronto.

CAPTURED THE RECORDS.

Two Nebraska Towns Preparing for Hostilities.

ELWOOD (Neb.), Jan. 5.—[By the Associated Press.] The Sheriff and a posse of 75 men made a descent on Homerville yesterday during the absence of the county officials at McCook, disarmed the citizens who were guarding the courthouse with Winchester rifles, and brought back a portion of the county records to Elwood. On November 30th the long and bitter fight for the county seat of Gosper county culminated in an election, in which the necessary two-thirds vote for its removal from Homerville to Elwood was secured. Homerville, however, refused to give up the records. The latest developments of course divides the records between the two towns and broadens the chasm between their respective citizens, with excellent prospects of further hostilities in the near future.

WENT TO THE BOTTOM.

The Steamer Montana Sunk by a German Vessel.

BALTIMORE, Jan. 5.—[By the Associated Press.] The British steamship Montana, Capt. Williams, which sailed this morning for London with an assorted cargo and 214 head of cattle, was this afternoon in collision off North Point with the German Lloyd steamer Main, Capt. Jaiger, which was coming from Bremen. The Montana was struck full in the side and sank in a few minutes. Chief Engineer Robert M. Young was killed, but the rest of the crew were transferred to the Main. The latter vessel was struck in the side.

The Montana was valued at $366,000. The cargo was worth nearly as much more. The greater portion of the cattle was drowned.

INDIANAPOLIS BUDGET.

More Delegates from Dakota Call Upon Gen. Harrison.

INDIANAPOLIS, Jan. 5.—[By the Associated Press.] Gen. Harrison did not have many distinguished callers today, and there was a noticeable decrease in the number of visitors. Judge Harrison Allen of Fargo, Dak., who arrived yesterday and had a talk with Gen. Harrison, was joined today by Judge Granville E. Moody of Deadwood, Dak. Both gentlemen talked freely about what the people of Dakota want and expect from the new administration. Their views, however, do not differ materially from those heretofore chronicled from Gov. Melotte and others. Both Moody and Allen favor division of Dakota. In fact, there has not been a single visitor from that section who has not favored and argued for division. About the only views they express that are new to the public are their violent opposition to Congressman Springer's suggestion to change the name of South Dakota to Winona, or some equally euphonious and appropriate Indian name. This they object to. They want the old names of North and South Dakota.

Among other visitors who called today were Clem Studebaker of South Bend, Ind., and his brother, P. E. Studebaker of Chicago. They called to pay their respects to the General, who is an old friend, and it was incidently learned that they have received an order from him to supply him with all the carriages and other vehicles necessary for use while at the White House. These will be the first vehicles used at the White House which were manufactured west of the Allegheney mountains.

Gen. and Mrs. Harrison attended the opera this evening.

LONDON PREFERRED.

What Merchants Say of the Proposed Foreign Exhibit.

SAN FRANCISCO, Jan. 5.—[By the Associated Press.] David Lubin, the Sacramento merchant, who has taken a deep interest in the proposed London exhibit of California products, made a tour of the large fruit-packing houses of this city today for the purpose of getting the views of prominent exporters on that project. In every place he visited the same general opinion was expressed, that an exhibition in London on a large scale, such as might be gotten up on an appropriation of $250,000, which will be asked for at the coming session of the Legislature, would be a splendid thing for the industries of the State. In every instance where the question arose as to the preferability of expending $50,000 for representation in the coming World's Exposition at Paris, or appropriating $250,000 for an exhibition in London, the latter course was indorsed as tending to further the State's interests to a greater extent than the Paris Exposition.

CRUSHING COREA.

The Chinese Government Makes New Demands.

SAN FRANCISCO, Jan. 5.—[By the Associated Press.] The Japan Herald, received by the steamer City of Peking today, has advices from Seoul under date of December 6th, to the effect that the Chinese Government has submitted three demands to the Corean Government, and threatens that if the latter shows any disposition to object to them measures will be taken to force the Coreans to acquiesce.

The demands were that the King be deposed and the Crown Prince be elected instead, with his father as regent; that Corea shall declare herself to all treaty powers to be a dependency of China, and that Chinese officers be placed at Fusan, Juensan and Jenchuan to exercise diplomatic functions.

The Corean Premier memorialized the King, remonstrating against such a course and at the same time offering his resignation. Judge Denny, the King's confidential adviser, also wrote a letter to the King, in which he stated that on the day when China attains her objects as regards Corea, both nations will have been brought under the rule of other powers.

At a brief meeting of the board of directors held immediately afterwards a communication was read from the governor of the Santa Monica Home requesting that no applicants be encouraged to go there now, as there are at present no accommodations, owing to the unfinished condition of the buildings. It will be some six weeks yet before inmates can be received. DARING THIEVES.

Attempt to Rob the Railway Station at San Fernando.

SAN FERNANDO, Jan. 5.—[By the Associated Press.] About 3 o'clock this morning an attempt was made to rob the railroad ticket office in this place. The robber placed his head within a partially opened window and called upon the night operator, Van Auker, to throw up his hands. Van Auker grabbed his revolver and fired at his assailant, the ball striking the narrow window-casing. The robber then fired at the operator, missing him by a few inches, the ball passing through the window-glass behind him. The operator then shot again, when the robber fled. This ball must have taken effect, as it passed directly out of the narrow window, which was wholly filled by the person of the assailant. On looking out Van Auker saw two persons running down the track, and immediately thereafter heard a wagon driving in the direction of Los Angeles. It is thought three men were engaged in the attempt at robbery. Already 10 suspicious characters have been arrested. This is the second attempt to burglarize this office within the past three years.

Result of a Feud Between Cowboys and Sheepherders.

TUCSON (Ariz.), Jan. 5.—[By the Associated Press.] Advices from Solomonville, Ariz., say that J. Lassiter, foreman of the Chiricahua Cattle Company's camp on the Bonita tributary of the Gila River, has arrived, and brings news of trouble between the company's men and some Mexican sheepmen from Apache county, which resulted in the killing of at least three Mexicans on Thursday. He states that the Mexicans had been grazing a flock of sheep near the company's range, which brought on the trouble, and that the Mexicans on Thursday ambushed some of the company's men. It seems, however, that none of the latter were killed, while it is probable that all the sheepmen met their death. The Under Sheriff and Coroner have gone to the scene of the trouble.

MONEY FOR VOTES.

Shocking Corruption Disclosed at San Francisco.

SAN FRANCISCO, Jan. 5.—[By the Associated Press.] In the Sullivan-Banks Senatorial contest William Sullivan today testified that he had been offered $5 to vote for Banks, and other witnesses testified that they had been offered money or knew persons to whom money had been offered.

Mr. Banks, the respondent, asked that the ballots be brought into court and counted, and an order was made by the justices for their appearance on Monday.

Startling Arrival of Plunder.

For the past few days the Plunder Store, 19 North Main street, has been receiving direct from its factory in New York immense consignments of men's and boys' clothing. You will save money by paying a visit to their store and purchasing your clothing there. They have some beautiful lines of Prince Albert and four-button cutaway suits, which they are selling for less than half the price the same goods have ever been sold for in Los Angeles. They have made special reductions on all their winter overcoats. The Plunder Store can undersell every competitor, as they manufacture all their own clothing, thereby saving the profits of the jobber, which accounts for the very low prices that prevail at the Plunder Store, 19 North Main street.

Winter Excursions.

The liberal and flattering inducements now held out to the public in the shape of winter excursions north would be all very nice and acceptable were it not for the cold, damp and often foggy weather to be met with there. To avoid this serious trouble, go south and visit the Hotel del Coronado, where glorious sunshine and healthy sea breezes await you, to say nothing of the hearty welcome and generous hospitality all receive at that popular resort.

California Waukesha!

PURE WATER!

The CORONADO BEACH COMP'Y

Made a very valuable and important discovery while investigating the water supply of the Otay Valley, San Diego county. They came upon a series of living springs, the water of which has similar properties to the celebrated

WAUKESHA WATER,

Clear, sparkling, agreeable to the eye and refreshing to the taste; one spring already yields 5,000,000 gallons per day, and other springs can, by development, be made to yield equal quantities.

This water has been piped to South San Diego, Coronado Heights, and Coronado Beach, and used with the utmost satisfaction and favorable results.

AN ANALYSIS

Made of this late discovery by the celebrated chemist, C. Gilbert Wheeler of Chicago, shows that it is exceptionally pure, and is possessed of highly medicinal qualities, which act as directly and favorably on all kidney troubles as

THE WAUKESHA WATER.

The above is fully borne out by the result of its use for several months among the guests of the Hotel del Coronado. Many severe cases of kidney disease among elderly people have been greatly improved, and others completely cured.

For sale by WOOD & LEITHEAD, Druggists, Pasadena; also at the Pharmacy, Raymond, and by THOMPSON & CO., Druggists, Downey block, Los Angeles.

SIMI RANCHO!

Cheap Lands. Good Lands. Prices and Terms to Encourage Settlers.

So much has been said and written about the high prices for ordinary farming and fruit land in Southern California that many Eastern people think that no good land can be had at less than $300 per acre in any good locality. But if you will call at the headquarters of Simi Land and Water Company you will find that you can buy well watered stock ranges at $5 to $15 per acre, and every one of these ranges contains more or less good farming land. You can buy first-class valley lands for $30 to $75 per acre, and small tracts of 10, 20 or 40 acres, for fruit farms, at about the same price. Colonies who want from 1000 to 5000 acres can be placed on fine lands, suitable for dividing among their members, at $25 to $40 per acre. This company cares nothing for boomers, and asks no inflated prices for their lands. We own nearly 100,000 acres, and have a perfect and undisputed title. The object is to furnish good lands, to actual settlers, at prices within reach of any who can buy land at all, and on terms which will enable men of moderate means to acquire homes in an attractive and healthful part of Southern California. We do not claim to have the best land in the State, and at present are not directly on a railroad, but expect to be before long. But as we do claim to offer better land and more advantages and on easier terms of payment than any other place that has been brought to our notice. It will cost you nothing but a postal card to get detailed information about these lands. If you want a farm or a stock range write or call at 19 West First street, Los Angeles, and ask about the Simi ranch.

PASADENA NEWS.

AN UNUSUALLY LIVELY DAY ALL AROUND.

The Heathen Robbers Break Jail—Important Meeting of the Board of Trade—The City Council Audits—An Hour in the House of God—Personal.

PASADENA, Jan. 5.—[Correspondence of THE TIMES.] Pasadena is indebted to her dog catcher in the amount of about $200. A very profitable business, indeed, it is at this rate. To the idle we would say, go and do thou likewise.

The Associated Press dispatches published in THE TIMES contains all the news, both foreign and domestic. Pasadena readers will make a note of it.

The parties who presented "Old Gooseberry" at the Raymond Music Hall on Christmas eve, have consented to reproduce the same in the vestry-room of the Universalist Church on Friday evening next. The concert will be given for the benefit of the organ fund.

BOARD OF TRADE.

The Board of Trade held a brief session this afternoon at 4 o'clock, with a fair attendance. W. U. Masters presided and E. E. Fordham officiated as secretary.

The matter of an entertainment for the benefit of the board was left in the hands of B. A. O'Neill. The cantata of *Esther* will in all probability be the one selected.

A communication from the Riverside Board of Trade, asking coöperation to petition Congress to provide money for the extermination of fruit pests was read and laid on the table.

The report of the secretary was read, showing a present membership of 51 active members. It was ordered published in the local papers.

Judge Enoch Knight, a charter member and director of the board, submitted his resignation by reason of a pressure of business. A lengthy discussion followed, and the whole matter was finally disposed of by holding it under consideration.

G. A. Swartwout, a member of the board, suggested that some action be taken by the board to secure a reduction in transcontinental railroad fares.

It was the sense of the meeting that a delegate be appointed from each Board of Trade in Southern California to meet in Los Angeles at an early date for concerted action in a reduction of fares to this section of country for the period of 90 days. The Secretary was instructed to correspond with the various boards on the matter.

C. C. Brown, who was present, said he came before the board to speak on the topic of local legislation. He thought that a call should be made for a citizens' meeting to regulate and change some of the present systems and speedily bring about a radical reform. On motion of Mr. Buchanan, the Secretary was instructed to publish a notice of a joint meeting of citizens and the board to take over the present arrangement on January 15th.

C. M. Burr, representing Warner Bros., excursion agents, appeared before the board in behalf of advertising this city on the traveling fruit exhibit. Mr. Warner will meet the board at the next meeting, January 15th.

COME BACK, JOHN.

The two Chinamen arrested in Los Angeles with stolen watches in their possession belonging to E. F. Brown of this city are free men. Early this morning they broke jail, just about five hours before they were to be called to the bar of justice. The escape was made by prying open the iron bars in the window of their cell and crawling through the aperture. After an entrance had been obtained in the corridor a back window was treated in the same manner, and by cramping their bodies they finally succeeded in reaching terra firma. A bed slat did the whole business. In the early part of the evening the prisoners were put into what was considered a safer cell, but which really furnished better means of escape, as the portholes are larger. Anyhow the escape is a sharp trick on the police, who are the laughing stock of the Council and whole city. A description of the highbinders has been telegraphed to several places, but in the opinion of many they will never be captured.

THE CITY COUNCIL.

The members of the City Council met this morning in regular session, with a full board and President Parker in the chair.

Chairman Townsend of the Street and Alley Committee reported that work on a street crossing at the intersection of the railroad track and East Colorado street had been begun, after earnest and fruitless appeals to the railroad company. The company will figure later when the bill is presented.

The Committee of the Whole, to whom had been referred the matter of street-lighting, submitted its report, asking that sealed proposals be received until the 17th inst. to furnish the city with gas or electric light.

The petition of several residents of South Pasadena avenue, asking to make improvements at their own expense, was read and granted.

The Committee on auditing and Finance presented a lengthy report, showing bills audited to the amount of nearly $3500. Warrants were ordered drawn for the payment of the same.

The communication of Jabez Banbury, tendering his resignation to the board as City Treasurer, was read and ordered filed. Applications from M. E. Wood and Col. W. A. Ray were received to supply any existing vacancy in that position.

The report of Marshal Mundell for the month of December was read, and, after some discussion, filed.

Adjourned to meet in regular session January 12th, and as a committee of the whole on Tuesday next.

LETTERS TO THE TIMES.

How Long? Oh, How Long?

Mr. Editor: Would it be asking too much of THE TIMES, as the forum of the people, to tell the suffering public who have located along the line of the Electric Railway on Pico street, even to the western limits of the city and beyond, why the City Council does not either compel the Electric Railway Company to run its cars or declare their franchise at an end? Many families were induced to buy lots and build houses on the Electric Homestead tract, and at intermediate points on tue line, under the promise that they should have a ten-minute connection with the corner of First and Los Angeles streets, but, instead, they have worried along until they ceased running entirely, with a wheezey, intermittent, tri-daily service, which was but little better than no service at all. Mechanics and business men who located on the Electric Homestead tract, and are compelled to be on duty at 7 o'clock a.m., are now compelled to leave home by early daylight and walk to either the Washington-street or the Ninth-street line—nearly a mile away—to get conveyance to the heart of the city. Cannot the City Council compel an efficient service or the abandonment of the valuable franchise, which would be gladly taken up and operated as a horse railroad by some of the connecting companies. If the gauge be the same as the two-horse car lines, why cannot the cable company give a service and the unsightly poles and gibbets which line that broad thoroughfare be taken for kindling wood? Why not? A SUFFERER.

A RESTRAINING ORDER.

E. C. Niedt & Co. Not to Use Their Firm Name.

The following is the restraining order issued by Judge Clark of the Superior Court, on the 3d inst., in the case of the E. C. Niedt Soap and Chemical Manufacturing Company against E. C. Niedt and S. A. Garrett using the name of E. C. Niedt & Co.:

On reading and filing the verified complaint of the defendant corporation, on motion of Gage & Robarts, attorneys for plaintiff, it is hereby ordered that the defendants, and each of them, show cause before this court on Wednesday, the 9th day of January, 1889, at 10 a.m. of that day, at the courtroom of Department No. 2, in Jones block, Los Angeles city, why they and each of them should not be restrained and enjoined *pendente lite* from using or causing directly or indirectly to be used, the term, name, appellation or designation of E. C. Niedt & Co. or E. C. Niedt Soap Company, and from demanding, receiving or opening any letters or orders directed to or bearing the said names or designations or either of them, and from in any way directly or indirectly diverting trade from the plaintiff; and further ordered that on the giving of a bond by the plaintiff in the sum of $5000, to be approved by this court, the said defendants and each of them, their agents, servants and employés be in the meantime restrained, and they and each of them, their agents, servants and employés, are hereby restrained and enjoined from doing, suffering or committing any of the said acts complained of, until the further order of this court.

Who Is Your Best Friend?

Your stomach, of course. Why? Because if it is out of order you are one of the most miserable creatures living. Give it a fair, honorable chance and see if it is not the best friend you have in the end. Don't smoke in the morning. Don't drink in the morning. If you must smoke and drink, wait until your stomach is through with breakfast. You can drink more and smoke more in the evening and it will tell on you less. If your food ferments and does not digest right—if you are troubled with heartburn, dizziness of the head, coming up of the food after eating, biliousness, indigestion or any other trouble of the stomach, you had best use Green's August Flower, as no person can use it without immediate relief.

OCEAN PALACES.

The steamships Queen of the Pacific, Santa Rosa and City of Puebla excel in their appointments and speed anything afloat in this country; and, for comfort and convenience, are ahead of the transatlantic lines.

Eastern tourists should treat themselves to a run up the coast. The voyage is usually smooth and delightful. A trip to San Luis Obispo and a ride over the Pacific Coast Railway, through the beautiful Avila Canon, the Arroyo Grande and Santa Maria Valleys, to Los Olivos (the home of the olive), is most enjoyable.

The Avila and Pismo beaches are very fine, and the celebrated Avila Hot Sulphur Springs are close at hand.

The new and beautiful Hotel Ramona is one of the finest in the country, and the rates are very reasonable.

CATARRH

CAN BE CURED!

Many years ago the undersigned made the discovery that catarrh was caused by parasites, microscopical in size, and devoted his treatment to their destruction. Four years ago he published the drawing shown below.

PARASITES MAGNIFIED 480 TIMES.

Since which time his wonderful success has induced many to appropriate his drawings and try to imitate his treatment; but no other treatment has ever been so successful. The cures made by the doctor are permanent, as cases treated four years ago are still cures. Before the doctor discovered these animalculæ the disease was considered practically incurable; but since that time thousands can testify to the contrary. No other method of treatment ever has or ever will cure catarrh. Some constitutions are more liable to the development of the disease than others, and often in such cases internal medicine is necessary. Many hundred cases can be referred to in the city where cures have been effected after every other known means had failed.

Persons at a distance can send for a list of questions and be treated as successfully at home without detention from business,

CONSULTATION FREE.

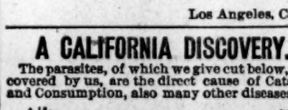
A CALIFORNIA DISCOVERY.

The parasites, of which we give cut below, discovered by us, are the direct cause of Catarrh and Consumption, also many other diseases.



Magnified 560 Times.

Imagine millions of these animalculæ in the nose, throat and lungs, as well as the minute eustachian tubes leading from the back part of the throat to the middle ear, and you will imagine the misery they can produce. Thousands are swallowed when the patient is asleep, causing kidney and liver trouble, headache, blood poison, general debility, etc. We have a specific for destroying them and expelling the poison from the blood. Use the CALIFORNIA POSITIVE AND NEGATIVE ELECTRIC COUGH AND CONSUMPTION CURE to take and the CALIFORNIA POSITIVE AND NEGATIVE ELECTRIC LINIMENT to apply, and if the stomach is bad, use the CALIFORNIA POSITIVE AND NEGATIVE ELECTRIC SYSTEM BUILDER it builds up the system and purifies the poisoned blood. They are manufactured from roots, herbs and flowers that grow in California, and are safe for children. They never fail. The Cough Cure is excellent for Coughs, Colds, Croup, &c., no child will ever die with croup when this is used. Our Liniment kills pain instantly. See our Trade Mark on every wrapper. Sold by all druggists.
